

Eligibility propagation in multi-layer recurrent spiking neural networks.

(Very short) Presentation 9: Writing the thesis

Werner van der Veen
(w.k.van.der.veen.2@student.rug.nl)

February 16, 2021

Work done since previous meeting

- ✓ Drafted and wrote large parts of the thesis;
 - ✓ Introduction;
 - ✓ Previous work;
 - ✓ Method;
- ✓ Ran models comparing single/multi-layer ALIF, STDP-ALIF, Izhikevich neurons.

Next steps

- ☐ Finalize results;
- ☐ Finish thesis;
 - ☐ Results;
 - ☐ Discussion;
 - ☐ Conclusion.
